

J&B SOFTWARE AND IDAHO STATE TAX COMMISSION CO-PRESENTATION WELL RECEIVED AT AIIM EXPO

Blue Bell, PA –March 7, 2008 – Steve Miller, Division Administrator for the Idaho State Tax Commission (ISTC), co-presented with J&B's own Laurie Hunter-Manning at the AIIM International Conference & Expo in Boston, MA on March 4, 2008.

The presentation focused on the successful implementation of three projects within ISTC. The combined effort of J&B and ISTC resulted in remote processing from five field offices, virtual batching with full page imaging & remittance processing and lastly, imaging and ICR of wage and tax statements.

The presentation was heavily attended and well received by the AIIM audience. Key elements of the presentation that were of particular interest to the crowd were the overall results of the implementation. Payments are deposited within 24 hours of receipt regardless of location and manual handling has been significantly minimized.

The Idaho State Tax Commission feels strongly that with a revitalized system in place, they have laid the foundation to graduate to the next level of transaction processing – Check 21.

About J&B Software

J&B Software revolutionized the image based payment processing industry. J&B Software provides market-leading automated payments, electronic transaction processing and managed systems to over 165 industry leading organizations, including regional and money center banks, insurance companies, mutual funds, credit card processors, student loan processors, brokerage telecom, utilities, government, non-profit and commercial organizations.

J&B Software's library of core applications and product modules utilize open architecture software and hardware platforms. The Company's extensive application suite includes remote image capture, ARC & check 21/image exchange, intelligent data recognition, and remote data entry as well as core
